

How to Install

- 1) Remove the screw on the left side of the Fortinet Appliance, place your Fortinet Appliance in your RI-FG60A, and fix with the Phillips Screw on the left side of the RI-FG60A.
- 2) Place the power supply on the RI-FG60A and tie it down with the 2 Tie Wraps.
- 3) Connect the cables from the connectors to your Fortinet Appliance, and fix with the Tie Wrap on the bridge hole at the rear of the RI-FG60A.
